ABSTRACT

This document is a collection of racial/ethnic data on the school population of New York State for 1984-1985. Such data have been collected annually since 1966 and are part of the State Department of Education's Basic Educational Data System. Table 1 gives racial/ethnic student distribution in the State's five major school districts (Buffalo, New York City, Rochester, Syracuse, and Yonkers), for the rest of the State, and for the State as a whole. Table 2 presents the distribution of Black and Hispanic students by location in the State. It shows that 70.6% of all Black students and 86.5% of Hispanic students attend school in New York City. Table 3 shows a percent distribution of students by racial/ethnic origin for the years 1980-81 through 1984-85. In the large cities, the minority group population rose from 66.5% to 69.1%, with an even larger increase in Yonkers. Table 4 details the number of schools and the number and percent of minority students in schools of differing racial composition, and finds among other things, that 77.6% of Black and Hispanic students attend a minority school. Tables 5 and 6 present data on numbers and percents of Black and Hispanic students, respectively, in schools of differing racial composition. Tables 7 and 8 show the distribution of professional school staff by racial/ethnic origin, with current year data in Table 7 and trend data in Table 8. The document includes appendices which detail the distribution of public school students by racial/ethnic origin for each school district in the State, and distribution of school professional staff by racial/ethnic origin for each school district. Data are included for Native Americans, Alaskan natives, Asians, and Pacific Islanders, as well as Blacks, Hispanics, and Whites (non-Hispanics). (CG)

INTRODUCTION

The collection of racial/ethnic data on the school population of New York State was initiated in 1961 with a census of public elementary schools. Since 1966 such information has been collected annually from all public elementary and secondary schools and is now a part of the Department's Basic Educational Data System.

Table 1 presents the 1984-85 racial/ethnic distribution of public school students for the State's "Big Five"[a/] school districts (individually and combined), for the rest of the State and for the State as a whole. Examination of table 1 shows, in part, that (1) excluding the "Big Five" cities, 8.6 percent of the students enrolled in New York State's public elementary and secondary schools are classified in the two major minority groupings--black and Hispanic; (2) within New York City, 71.3 percent of the students are of a major minority group, and 22.8 percent are classified as white; (3) in four of the State's five largest cities, over 35 percent of the students are classified as black.

Table 2 details the 1984-85 distribution of black and Hispanic students by location in the State. It can be seen that of all public school black students in the State, 70.6 percent attend schools in New York City, while an additional 10.2 percent attend schools in the other four major cities. Some 86.5 percent of the State's Hispanic students attend schools in New York City.

Table 3 shows a percent distribution of public school students, by racial/ethnic origin, for the years 1980-81 through 1984-85. In the large cities of the State, the major minority group population of the public schools rose from 66.5 percent in 1980-81 to 69.1 percent in 1984-85. The increase was most pronounced in Yonkers where black and Hispanic representation in the public schools rose 8.3 percentage points over the five-year period.

Table 4 shows the number of schools and the number and percent of minority students (black and Hispanic) in schools of differing racial composition; i.e., the percent of minority students in the school. Examination of table 4 shows, in part, that (1) there are 292 schools in New York with no black or Hispanic students; (2) there are 67 schools in which all students are of a major minority group and that the enrollment in these schools accounts for 4.1 percent of the State's total black and Hispanic enrollment; (3) over three-quarters (77.6 percent) of the black and Hispanic students in New York State's public schools attend a school that can be classified as a minority school; i.e., 50 percent or more of the students are black or Hispanic.

Table 5 shows the number of schools and the number and percent of black students in schools of differing racial composition. Examination of table 5 shows, in part, that (1) there are 517 schools in New York State with no black students; (2) over half (53.2 percent) of the black students in New York State's public schools attend a school that is predominately black; i.e., 50 percent or more of the students are black.

a/Buffalo, New York City, Rochester, Syracuse, Yonkers

Table 6 presents data similar to that of table 5 for Hispanic students. It may be seen that while there are no "all Hispanic" schools in the State, 48.3 percent of the Hispanic students attend schools with enrollments that are predominately (50 percent or more) Hispanic.

Tables 7 and 8 show the distribution of public school professional staff by racial/ethnic origin, with current year data presented in table 7 and trend data for the years 1980-81 through 1984-85 appearing in table 8. Table 8 shows that the percent of minority group staff rose from 16.5 to 22.6 percent in the large cities of the State between 1980-81 and 1984-85. For the total State, minority groups comprised 10.4 percent of public school professional staff in 1984-85.

Appendix A distributes public school students by racial/ethnic origin for each school district in the State. Appendix B distributes public school professional staff by racial/ethnic origin for each school district in the State. Figures in these two appendices may not match those in tables 1-8 due to rounding.
